Dhaka,Bangladesh

Professional Summary

Motivated and detail-oriented Computer Science undergraduate, skilled in JavaScript, Python, and C++, with hands-on experience building full-stack web applications. Driven by a strong interest in AI and Machine Learning, actively pursuing self-learning and research exposure. Demonstrates the ability to mentor peers, lead academic projects, and rapidly adapt to new technologies. Eager to contribute as a Teaching Assistant by supporting instruction and expanding academic and research engagement.

Education

Bsc in Computer Science and Engineering 2023 – present
United International University
- Credits Completed: 74/138
- CGPA: 3.67/4.00
- Expected Graduation: 2027

Higher Secondary Certificate 2018 – 2020
Birshreshtha Munshi Abdur Rouf Public College
- GPA: 5.00/5.00

Work Experience

Full Stack Developer (Remote) 11/2023 – Present
Freelance
- Designed and developed scalable web applications for clients using React.js, Node.js, Express.js.
- Delivered clean UI/UX and responsive designs using Tailwind CSS.
- Collaborated directly with clients to understand requirements and deliver production-grade applications.

Projects

1. ContestHub
Dynamic Contest Creation and Management Platform with multiple dashboard

- Efficient contest oversight with multi-dashboard control for seamless management.
- Secure payments are ensured through integrated Stripe functionality for financial transactions.
- Admin-managed system, empowering contest creators with dynamic Leaderboard functionality.

Technologies: React, MongoDB, Firebase, Stripe, JWT, Tailwind CSS, Axios, AOS, Material UI, Swiper.js, and Express JS.

Skills

Programming Languages: Java, C/C++, Python, JavaScript, TypeScript
Frameworks & Libraries: Next.js, React.js, Node.js, Express.js, Mongoose, Prisma ORM, Django
Database: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Vercel, Postman, Figma

Relevant Courses

- Discrete Mathematics
- Probability and Statistics
- Structured Programming Language (with Lab)
- Object Oriented Programming (with Lab)
- Data Structure and Algorithms I & II (with Labs)
- Computer Architecture
- Artificial Intelligence
- Advanced Object Oriented Programming Laboratory

Certificates

- Programming With JavaScript - Coursera
- Python for Everybody - Coursera
- Python Data Structure - Coursera
- Meta: Introduction to Front-End Development - Coursera
- Meta: Version Control - Coursera
- CSE Fundamentals With Phitron - Phitron
- Complete Web Development Level 1 & Level 2 - Programming Hero

Awards and Achievements

UIU CodeBooster Round 1 Programming Contest 2023
1st Runner-up

2023 ICPC Asia Dhaka Regional Site Online Preliminary Contest 2023
Honorable Mention

Languages

- Bangla: Native
- English: Fluent
